Allowable Subject Matter

Claims 1-39 are allowed.

The following is an examiner's statement of reasons for allowance: The claims are allowable because the prior art does not teach or suggest an optical recording medium comprising a 2-D recording layer formed of a phase-change material or chalcogenide and a capping layer formed directly on the recording layer which is formed of the materials claimed. The closest prior art, US 2004/0086802, discloses a recording medium formed of a 2-D recording material but does not disclose the capping layer.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
